

Solid Waste

The Town has operated a solid waste program for a number of years. The program includes pay as you throw curbside collection, and operation of a transfer station at 9 Cross Road, Exeter.

The Town's program includes pay as you throw curbside collection (requiring Town of Exeter trash bags, which can be purchased at local stores in two sizes). In addition, the Town's transfer station accepts a number of different items. Some items require a permit to use the station, others do not.

The links below highlight the details of the program. For more information, contact Exeter Public Works at 773-6157.
